---

This is your treatment summary, now you have finished cancer treatment for you to read and keep safe. A copy will be sent to your GP.

Aim of your treatment: Curative Intent.

Contact details for urgent queries: Urology oncology Clinical Nurse specialists. contactDetails

**Follow up plans**

2-3 month Post Surgery - PSA and review with nurse specialist You will then require 6 monthly PSA check and the results will be communicated to you electronically. If your PSA rises to an undetectable level we will arrange an appointment with our clinical nurse specialist within 2-3 weeks to discuss and manage appropriately.

Your satisfactory PSA range is  $< 1$

If your PSA and symptoms are satisfactory after a 10 year period you will be discharged from the Urology oncology service. You will not require routine PSA blood tests.

Thank you.
